The ultimate protection for your motor vehicle

A simple and covert vehicle tracking solution with European Coverage.

How does it work?

In the event of an unauthorised movement, CobraTrak starts the recovery procedure immediately:

1. An alert is sent to the Cobra Control Room who in response contacts you to confirm whether the alert is genuine or not.
2. Activation of the system and tracking of your vehicle begins using the latest GPS and GSM technologies.
3. Contact with the local police authorities is made.
4. Pin-point positional information is relayed to police to facilitate rapid recovery of your vehicle.

Why Cobra?

- GPS technology allows Cobra tracking systems to accurately track and locate your vehicle whenever theft is detected
 - European Tracking Coverage
 - Control Rooms operational 24/7, 365 days a year
 - Insurance approved
- The Cobra Trak products have been tested to the Thatcham TQA class criteria.
- 3 year standard warranty.

CobraTrak Q

Features:

- Simple entry-level stolen vehicle recovery system with Pan European tracking coverage
- Alert service when unauthorised movement of the vehicle is detected
- Integral battery back-up
- Recognised by many leading insurers in the UK and Ireland
- Thatcham Q-class / TQA listed
- Sold Secure approved.

CobraTrak Q attivo

All the stolen vehicle recovery benefits of CobraTrak Q plus:

- Pin point your vehicle at any time

Owners can track and interact with their vehicle online, using a web based application. This enables pin point street level positioning and the ability to review exactly where the vehicle has been when time and distance tracking has been activated.

In addition, owners can request and receive updates directly via their mobile phone.

CobraTrak ADR

All the stolen vehicle recovery benefits of CobraTrak Q plus:

- Automatic Driver Recognition

Your Automatic Driver Recognition (ADR) card is a discreet pocket-sized card that you carry with you whenever you drive your vehicle. On leaving your vehicle, the system automatically arms itself.

If the vehicle is moved without the ADR card, the Secure Operating Centre is alerted instantly to a potential theft. This means even if your vehicle is taken using your own keys, the theft is detected immediately.

- Europe-wide stolen vehicle recovery system with Cobra operational support in other European countries

- Integral battery back-up
- Alert service when unauthorised movement of vehicle is detected and if a system sabotage is detected
- Thatcham Q-class / TQA listed
- Sold Secure approved.
