On the road: day-to-day, leisure and on holiday.

 **Globecar**

**Globecar.** On the road: day-to-day, leisure and on holiday.

## Your Home

Mobile means freedom. You decide where and when, and which way you go – easy, independent and free. But there is one thing you always have with your Globecar – you own home.

The Globecar offers more – whether you're going for a well earned relaxing holiday or you're just planning a weekend tour – the compact Globecar 566U will offer you the comfort and flexibility; not forgetting that our vehicles can be used in any day-to-day situation. Your Globecar can be used as a daily vehicle if you drive to work or as a mobile office – the possibilities are endless.

### Enjoy your leisure time – Globecar.

Globecar is a product of Pössl Freizeit and Sport GmbH. As one of the first in the branch, we have built compact motorhomes for more than 20 years and our experience can be seen down to the smallest detail.

# Globecar 566U

Pleasure in good company.

# Globecar 566U

The Globecar 566U is the perfect vehicle for two.

The specialty of the Globecar 566U is that the rear seating area allows you to sleep lengthways. As the centre axis of the vehicle is less prone to the effects of side movement, the beds can be made up must faster, in a square position, without repositioning the vehicle.

## Sleeping

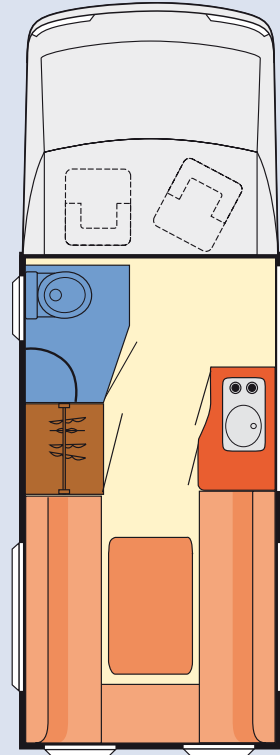

The two rear banks are of different lengths: The 2,0 meter bank on the left offers a bed for the taller person whereas the bank on the right hand side is design for people up to 1,8 meters tall.

## Rear Seating Area

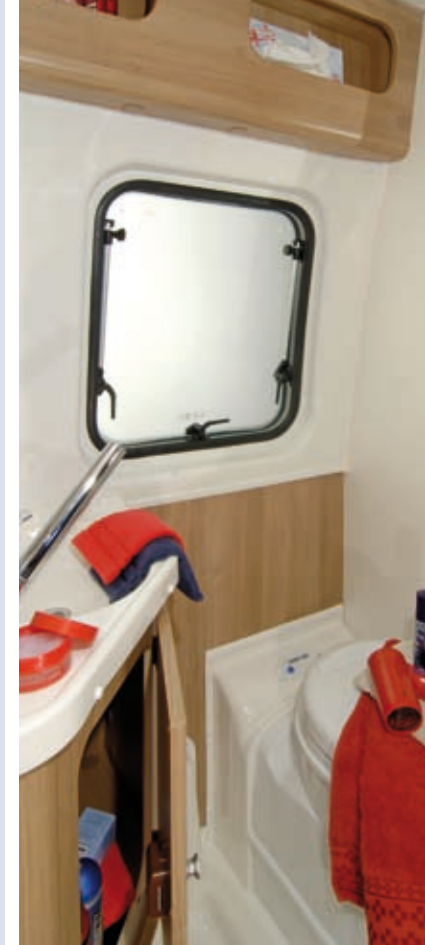

When the rear seating area is made in to a double bed it is 1,7 meters wide. The rear seating area has another big advance as up to 5 people can comfortable sit down and enjoy a wonderful relaxing evening.

## Base Vehicle

The Globecar 566U has the Ford Transit as base vehicle.

Vehicle Dimensions	568 x 197,4 x 267,5 cm (L x B x H)
Internal Height	192 cm
Seating	max. 2
Bed Dimensions	Single Bed Right: 70 x 185 cm Single Bed Left: 70 x 228 cm Double Bed: 170 x 228 cm

Fresh and Waste Water	ca. 100 / 80 l
Engine Variations	2.2 l, 110 PS • 2.2 l, 140 PS
Mass in Running Order	ca. 2670 kg
Maximum Authorised Weight	3500 kg
Towing – Brake	1000 kg
Maximum Authorised Weight	4500 kg (Combined)

*The complete vehicle can be in the dark in no-time with the fitted blinds. The seating area upholstery is made of high quality material and cold formed foam with a slatted base for a comfortable relaxing sleep.*

*Practical – there's a corner wash basin with retractable mixer tap, under sink storage and mirrored wall unit.*

*Good idea – the toilet has a waste tank which is removable from the outside. The bathroom has an integrated shower tray and there is also a full shower curtain.*

A clever solution – it's unbelievable that a motorhome in this class has practical storage space in the floor allowing you to transport even the larger camping accessories.

The Globecar compact kitchen block is fitted as standard with a large 60litre fridge, a quality cooker and sink.

The space saving 100 litre fresh water tank is resistant against frost. The 80 litre waste water tank is fitted with a robust waste valve. On request, the tank can be fitted with an anti-frost heated system to stop the waste water freezing.

ISO outward opening windows are fitted with combination blinds and fly screens. There is a ventilation roof light in the bathroom and a large panoramic sky light in the living area allowing fresh air and light in to your Globecar.

## ALL IN – we've thought about everything

The Globecar concept is to offer an all-round vehicle – complete motorhome, a large car and a family transporter in one.

The Globecar is fitted with well proven technical elements and a high quality construction. The most important equipment is fitted as standard in our vehicles:

- ABS
- EPS
- Traction Control
- Airbags – Drive and Passenger
- Carpets in the Living Area
- Cruise Control
- Aluminium Wheels
- Painted Bumpers
- Metallic Paint
- Cab Air-Conditioning
- Tinted Windows
- Electric Mirrors
- CD/Radio
- Central Locking
- Grill in Vehicle Colour
- Frog Lamps

The roof is insulated with glued polystyrene and Thermoform. The ventilation roof light are fitted with integrated blinds.

The walls are insulated with 10/20 mm PE-integral-foam which is an especially good insulation material.

The Sandwich form floor is also insulated with a RTM hard-foam with a durable PVC covering.

The complete water system meets the European standard 10/2007 (2002/72/EG).

The Globecar 566U is available in 2 different colours:

Metallic Silver

Salsa Red
