

## 600 RL

### Respecting the past - Embracing the Future

Everything about this remarkable motorhome is a result of over 20 years of dedication and our unwavering desire to produce the best. Take the long wheel-based Fiat Ducato as a starting point, add painstakingly crafted furniture, carefully selected materials, contemporary styling, together with IH design magic and you will find the IH 600 RL.

The 600 RL is a highly popular compact two berth, end lounge layout, with a well-planned kitchen and washroom located mid-vehicle. With minimum effort, the superb rear lounge doubles into either twin beds or a king size bed and the layout additionally allows all the motorhomes' facilities to be used whilst the bed is still occupied.

Our most compact model, the 600 RL comes with twin rear doors which open to reveal excellent storage. There is an option to add the new IH rear

enclosure which has been improved this year with a larger boot allowing easier access to the storage area.

The large windows allow natural light to show off the fine workmanship and give uninterrupted views of your outdoor surroundings, whilst at night the generous mix of contemporary light fittings creates the perfect mood for entertaining friends or relaxing in this impressive motorhome.

We know interior space is high on your list of priorities so the new 2014 model has an under slung gas tank (as standard) providing increased interior storage. The large range of exterior colours, cabinet finishes, worktops and upholstery choices we offer

means you can create the van of your dreams. A van for all seasons whether your destination is the Scottish Highlands, the French Riviera or anywhere in between, you will be travelling and living in the utmost comfort and all at a highly affordable price.

It is the many refinements and attention to detail which makes this motorhome unmatched and unrivalled in style and design. Allow us to demonstrate what makes an IH motorhome stand out from the crowd.
